PROFILE

Senior Frontend and React Native Engineer with 5+ years building web and mobile products. At MDigital, worked on ERP/CRM products for real estate, construction, and collection workflows; at Cointelegraph, helped scale a cross-platform app to 100K+ active users and 50+ production releases. Open to relocation.

WORK EXPERIENCE

MDigital

Aug 2025 - Sep 2026

Frontend Developer · Full-time, onsite · Bishkek, Kyrgyzstan

- Worked on a modular ERP/CRM ecosystem for real estate and construction: projects, contractors, contracts, payments, materials, tenders, warehouse, documents, reports, and approval workflows.
- Built Gantt-based planning, GPR/UGPR/VDC scenarios, role-aware editing, baseline revisions, timeline navigation, and supplier proposals.
- Contributed to a mobile catalog for residential projects, apartments, parking, and commercial spaces, and adapted a corporate task-management frontend with SSO, ERP notifications, and protected WebView navigation.
- Developed Soft Collection CRM workflows for credit, payments, Legal, Fraud, field assignments on 2GIS maps, permissions, map caching, and relationship analysis.

Cointelegraph

Aug 2022 - 2026

React Native Developer · Full-time · Remote

- Mobile MVP for crypto-news platform, iOS + Android.
- Cut load time 6s → 1.8s (–70%), bundle 170 MB → 110 MB.
- Shipped 50+ production releases; reached 100K+ active users.

Stack: React Native, React, TypeScript, Redux Toolkit, Apollo GraphQL, Firebase, Sentry, Java, Kotlin, MVVM, Android SDK

Freelance · NDA Projects

Jan 2019 - Jul 2022

Frontend / React Native Engineer · Remote

- B2B ERP — virtualized tables for 10K+ rows (react-window), multi-step forms with strict Zod validation (90+ fields), S3 direct-upload pipeline via Uppy for multi-GB files, 4-language i18n.
- Customer CRM — interactive Leaflet maps with 500+ clustered markers, type-safe routing (TanStack Router), installable PWA with offline cache, Framer Motion micro-interactions at 60fps.
- Banking debt-collection CRM — MobX store across 50+ entities, custom Webpack config cut bundle by 40%, real-time Nivo dashboards, 2GIS MapGL for KZ/RU geo coverage.
- Cross-platform mobile work — React Native screens shared between iOS and Android for selected client projects.
